THE AUSTRIAN CABINET TENDERS RESIGNATION

Chancellor Reimer, Head of the
Peace Delegation, to Form
New Government

(International News Service.)
VIENNA, Oct. 18.—The Aus-
trian national assembly has rat-
ified the peace treaty.
Immediately afterwards the re-
signations of Premier Renner and
the other members of the cabinet
were accepted. Chancellor Ren-
ner, who headed the peace dele-
gation to Paris, was empowered
to form a new government.

(International News Service.)
WASHINGTON, Oct. 18.—There
were abundant indications today
that the long fight to kill the treaty
of peace with Germany was on the
verge of final collapse. Even sen-
ators belonging to the group known as
"bitter enders" admitted the defeat
of the Shantung amendment had dealt
the opposition to ratification a stag-
gering blow, from which it was
unlikely to recover. An eleventh hour
effort by Senator La Follette,
Republican of Wisconsin, speaking for
four or five days, was threatened by
some of them, but the republican
leaders expressed their belief that
they would be able to save it off.

The peace treaty will be ratified
with reservations by November 5, ac-
cording to views expressed in admin-
istration circles today. A compro-
mise on reservations which will be hard-
ly more than interpretative reser-
vations is said to have been found pos-
sible.

home within the next two or three
weeks.

Hartselle's grid squad walked all
over Coach Ruddy's Decatur Athletic
club at Hartselle yesterday, the locals
being trimmed 47 to 0. Hartselle
made seven touchdowns, four of them
in the first quarter, sweeping the D.
A. C. team off its feet. Routless
started with many sweeping end runs.
Boyd and Watson, local ends, played
desperately and put up an excel-
lent up-hill fight in the face of heavy
odds in weight.

tend the conference yesterday was
not at his office today. It was stated
that he had suffered no ill effects
from his participation in the confer-

to his office late this afternoon.

(International News Service.)
WASHINGTON, Oct. 18.—Fifteen
American citizens, five representing
employers, five labor and five the
public, went into session at 9:30 to-
day seeking to find some common
platform on which President Wilson's
industrial conference can agree on
the matter of workmen's representa-
tion in labor disputes. The fifteen
composing the industrial conference's
general committee hopes by Monday
morning to have ready a report that
will bring peace to the conference.

(International News Service.)
WASHINGTON, Oct. 18.—Women
will gain more by "economic inde-
pendence" than by political indepen-
dence. That is the sentiment of the
four women-members of the industrial
conference.

U. S. ARMY MAY TAKE OVER WHARVES

NEW YORK PORT STILL TIED UP
BY STRIKE OF LONG-
SHOREMEN.

(International News Service.)
NEW YORK, Oct. 18.—The U. S.
army may take over the wharves at
this port, as a result of the Long-
shoremen's strike, it was reported to-
day. Less than 2,000 longshoremen
were at work, following the action of
dock workers in voting against a re-
turn to work.
President T. V. O'Connor, of the
longshoremen's union, against whose
advice the men struck, told the rep-
resentatives of the federal shipping
board that the situation had gotten
beyond his control and that he could
do nothing with the men. 250 ships
are lying idle in the harbor.

ance today, when representatives of
the sugar equalization board met with
the senate agriculture committee and

board demands it. Many members of
the committee are opposed to the li-
censing system.

LEWIS SAYS COAL MINERS TO STRIKE; BLAMES OPERATORS

(International News Service.)
WASHINGTON, Oct. 18.—"We will
strike in order to live," declared John
L. Lewis, acting president of the
United Mine Workers of America, to-
day.

There is but slight hope of averting
the strike, Lewis declared, "because
the attitude of the operators dis-
proves all possibility of averting the
strike."
"We will accept no compromise,"
said Lewis.

With regard to the report that sol-
diers would be placed in the mines,
Lewis said: "The war department
will have to get a bigger army."

TWO PICKETS SHOT AT CLEVELAND; NINE PLANTS TO REOPEN

(International News Service.)
CLEVELAND, Oct. 18.—Fears
were expressed today that the quiet-
ness which has marked the steel strike
situation in the Cleveland district is
at an end. The shooting of two
pickets last night in the vicinity of
the Cuyahoga plant of the American
Steel & Wire company, coupled with
the announcement of the same com-
pany that it would re-open all of its
nine plants Monday morning, led au-
thorities to believe that a crisis is at
hand. Ray Atkinson, shot twice in
the head, is at a local hospital and
may die. Chas. Lukus, shot through
the leg, will recover. Authorities to-
day were investigating the shooting,
which occurred, according to plant of-
ficials, when they attempted to bring
an automobile loaded with fresh meat
into the plant for the men quarantined
there.

Young, secretary of the steel work-
ers for the Chicago district, declared
the resolutions will be a big factor
at the meeting.

THE SIGNAL TRIUMPH OF PRESIDENT WILSON

That President Wilson, although marooned at his home by illness and surrounded by a cordon of physicians, is still the dominant man of the American nation, was amply demonstrated by the vote in the senate this week on amendments to the Versailles peace pact. One of these amendments, that relating to Shantung, was the biggest bone of contention that the republicans could muster in their final play of petty politics. It was an issue that was expected to rally the Western senators to its standard, for out on the coast there is always existent the fear of Japanese immigration, as well as a tinge of racial animosity. It was easy, too, to conjure up hobgoblins, to drag forth the direful yellow man and picture him as a scheming, skulking creature bristling for war with America. No possibilities of the situation were overlooked by the aggressive Johnson or the scheming Lodge. Yet the Shantung amendment went the way of all the others, and but two now remain to be voted on. That these have not been cast into the discard is due entirely to the republican foresight in preserving some excuse for continued debate.

It is already evident that no textual changes will be made to the peace treaty as drafted at Paris, and as presented to Congress by President Wilson. The Senate may draw up some resolutions expressive of its interpretation of certain clauses of the treaty, and these may be adopted. But they will be "mere scraps of paper," for opinions of senators will change with the years, and the senate of 1940 may construe things quite differently from the senate of 1920. It is now inevitable that the Senate will ratify the treaty, and that it will ratify it as drawn by Mr. Wilson.

THE BOLD MR. PALMER HAS A NEW IDEA

A. Mitchell Palmer, attorney general of the United States, who is leading the movement to reduce the high cost of living, as well as the cost of high living, is resourceful and optimistic. Not content with criminal actions against profiteers, food barons, gougers, hoarders and their ilk, he is preparing to appeal to the women of America to get along on fewer clothes's style changes. He has become convinced that at least 25 percent of the cost of women's wearing apparel is directly due to the feminine craving for the latest fad, a craving that has been capitalized by the manufacturers of women's garments. To overcome this propensity of fair woman to adorn her loveliness in doll rags of the very latest vintage, he will send speakers throughout the length and breadth of the land who will preach the doctrine of good clothes but old clothes. The experiment is a bold one. It is based on the hope that style is not the paramount issue with milady, a hope that will no doubt meet with a tragic death. It is almost the same thing as appealing to a man not to spend money when he has it in his pocket, merely for the sake of better conditions and lower prices. It can't be did, Mr. Palmer. It's a great idea, but it won't work. The modern woman is not going to allow some cat-fish neighbor to declare that she is dowdy, not even to prevent the country from going to the bow wows.

The ancients yearned to have their enemies write a book; the moderns are content to have their enemies enter a trans-continental air derby.

Secretary Daniels has no doubt stimulated recruiting by announcing that the American navy has a six months supply of sugar.

Secretary Baker unhorsed the red-lic agitated in America when he placed the regulars at the disposition of the governors.

Voice of the People**HOMES ARE NEEDED**

Albany-Decatur Daily:

For many months I have noticed that the Daily frequently urges the business of "Home Building" and for some time I paid but little attention to the suggestions made, as I seemed to think that the shortage of houses was for just a short time. Now that I have come to think of the situation in a more careful way, I wonder how the problem is going to be solved. With the demand for homes growing faster than accommodations are being made, it appears that more of us will have to arrange for our own home; and, when this movement is well started, which is very evident that it will be soon, the demand for material will be so increased that we cannot expect any reduction in the cost of building. For this condition seems to not only exist in our own and near towns but instead is very general. We notice in the October issue of the American under the head of "Your Rent" by Abram I. Elkus, chairman of the New York State reconstruction commission, that last spring the government made an investigation which showed shortages of homes to be in large numbers in different sections of our country. A few of the shortages or homes needed are: San Francisco 1500, Detroit 30,000, Chicago 12,000, Philadelphia 30,000 and many others on to New York City with 75,000. This does not include all of the list and is only a few of the smaller and larger ones.

Some writers tell us that the cost of construction is not high today and that it is low, as compared with other commodities in general. But, although some readjustments in the prices of individual classes of building material may take place, the cost of construction will not come down to such an extent as to endanger the judicious investment made today in the erection of a new building.

A judicious investment in the erection of a new building does not depend solely on the cost of construction. It may well happen that the man who buys a lot today and builds on it a house, the cost of which is not greatly out of proportion to the cost of the land, will be better off a year from now than he would be if he had left his money idle in the meantime. City land is at present the least inflated of all material wealth.

At the present time the matter of home building is becoming the question of the hour.

The congress of the United States has given to the building and loan association movement exemptions from income and excess profit tax in recognition of the great work of "Home Building."

The department of labor at Washington, in an effort to encourage home building has turned to the building associations for assistance.

Chambers of commerce and civic bodies in localities where the housing question is pressing are addressing themselves to the solving of the question, and the case is a rare one where the proposition is not made to organize a building association as a means to the end.

Real estate seems to have stood the test of time and it is a fact that funds invested in real estate have done more to increase the wealth of the world and elevate humanity at large than any other form of investment.

ment.

Ambitions may be realized in our children if we have the home environment which transmits to them the ambition. The basic need is a home and the sense of shelter and security which goes with ownership. If we are determined that they shall have a fair show to make good, then get them tucked away in a good home—a home that is all of its kind. It will become to them the very hub of the universe.

Those of us who are paying rent today on just a place should go at once and endeavor to buy the place or some other place and make it a home of our own and for our children. It is not an uncommon occurrence now for renters to receive such news as that they must move as early as possible for the place has been sold, and I think some of them have received such notices more than once in the past two years.

Most people are making more money now than ever before and it is easier to secure more money with which to purchase homes than heretofore and it seems to me that this is the psychological moment for the present generation to make a grab for a home. Do it now before the real rush is on. Remember that home building was restricted to a great extent for duration of the war and we have not as yet commenced a real rush on reconstruction.

Yours truly,
A. T. HANSON,
Acting Secretary,
North Alabama Building & Loan Association.

Auntie Would Help.

Bill Bush of L.A.A.C. was showing an elderly lady the virtues of the car he sells. He made many turns and at the proper times extended his arm as a turning signal.

The old lady watched the proceeding for some time. Then she craned her neck and looked at the sky.

"Mister," she said sternly, tapping Bill on the shoulder, "you better get to your driving. It don't look like rain no how, but if it should, I'll let you know."—Los Angeles Times.

HAD CHRONIC BRONCHITIS FOR TWENTY-SIX YEARS NOW WELL AND HAPPY THIS IS WORTH READING

The experience of Mr. E. J. Toupalik, 1438 Rose street, LaCrosse, Wisconsin, is chiefly remarkable on account of the length of time he was afflicted.

He writes: "I have been suffering with chronic bronchitis for twenty-six years and every winter I would catch cold and become so hoarse I could not speak for six or eight weeks. I could get only temporary relief."

"This winter I was taken with Grip and was in awful shape. A fellow workman advised me to take PE-RU-NA. By the time I had used three-fourths of a bottle, the hoarseness was gone, also that tired feeling. I am on my second bottle. Hereafter PE-RU-NA will be constantly in my house. It is the best medicine ever put up for the purpose."

For any disease due to catarrh or catarrhal conditions, PE-RU-NA is equally dependable. Coughs, colds, catarrh of the head, stomach trouble, constipation, rheumatism, pains in the back, side and loins bloating, belching gas, indigestion, catarrh of the large and small intestines, are some of the troubles for which PE-RU-NA is especially recommended.

PE-RU-NA can be purchased anywhere in either tablet or liquid form.

One of these thirty-two prizes will be given by us, and the winning number will be on display in our office Monday morning. Bring in your ticket any time during the week and compare your number with ours.

Should you have a farm or other real estate that you wish to put on the market, bring your deed or a description of the property with you and let us put it on our "For Sale List." We will advertise your property through a system that will put it before several hundred thousand people and no one will know whose property it is until we tell them or show them. One periodical in which we advertise has a circulation of over two million.

First, be sure that you wish to sell. And second, do not ask an unreasonable price. We will do the rest.

Here's hoping to see you next week. We will have a souvenir for everyone bringing in a card.

The Flu Is Coming Back

The doctors tell us that we are certain to have a return of the FLU, and that it will start almost any time. They also tell us that there has not been found a cure for that dreaded disease. They do tell us, however, that if we keep our system in a healthy condition that we will not be likely to get the Flu. So if you are wise you will get yourself in shape to resist it. D. & D.

Systone is the Medicine

to put you in a healthy condition, which is the best preventive for any disease. We have many testimonials from people in Chattanooga who used Systone last year. Some tell us they know Systone kept them from having the Flu, and others tell us it gave them back strength after they had the Flu.

Don't delay, but get a bottle today and let the whole family take it before it is too late. We believe D. & D. Systone to be one of the best Tonics for the system that has ever been offered to the public, and your druggist will refund your money if you are not satisfied.

JUST IN PASSING

LIKED EDITORIAL
"I was very much impressed," said John K. Walsh, foreman of the Louisville and Nashville shops and former Secretary and Treasurer of the shop crafts of the L. & N. system, "with a recent editorial in the Saturday Evening Post. 'It suits me, where the editor says, that the platform of the next candidate for President should be in part: 'Work or starve. Play together or you will play hell; be a good American or get out.'"

"And I like the description the same editor gives of an acceptable President," continued Mr. Walsh.

"He must be a man who will play no capitalistic favorites for the sake of friendship, and no labor favorites for the sake of votes. He must be a man who will give short shift to anyone who plays it heads-I-win, tails-you-lose. He must not be afraid to go after anyone who tries to assume power without responsibility or accountability; who breaks his word or his contracts, individual or collective. Such a man's creed would be: A fair chance for all classes, and no looting of any one class for the benefit of any other. He would be an American of the Americans and concerned about what kind of men be-

A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today.

come Americans. He would give more attention to the quality of immigration than to its volume, and he could start a little involuntary emigration.

"Our candidate must be one who will put duty above a second term. The right man can do more for his country's welfare in the next four years than an average President in three average terms. He must be the kind of man that as an employee gave a full day's work and was not afraid to heap up the measure; and as an employer was something more than a set-of-side whiskers, an impersonal Jehovah in a white waistcoat to his men."

Continuing said Mr. Walsh: "And the Post editor hands the whole world a good strong knock of advice as follows: 'Half the world has been talking and slacking, and the other half has been slacking and jacking. Labor has been on a new joy-strike every morning. The railroad brotherhoods have been raising their wages and incidentally the carpenters' and bricklayers' costs of living. The carpenters and bricklayers have been boosting their own pay and incidentally the brotherhoods' rent. Capital has been tacking the new costs on to prices, and sometimes a trifle more for luck. Bootblacks are making more than clerks, waiters more than professors, and cooks more than teachers. Everyone has been letting down a little, wasting a little and saving mighty little. With the crowd accepting any new theory of society that disregards the hard facts of life, this is no year for rah! rah! politics and bush-league messiahs."

"If any one wants to try the Bible along these lines he might read Daniel 5th chapter, 26-27," concluded Mr. Walsh.

Next Morning.

My brother told me this. Marie is his lady friend, Mrs. Hemming, the mother of his child. He said:

"You know Marie has one of these bright-red sweaters. I took her to a dance in the park one night and she wore it. Some of the fuzz from the sweater rubbed off on my coat sleeve. Next morning I was in a rush to catch my train and forgot to brush it off. Mrs. Hemming and I were on the train and we all sat together. While I was talking Mrs. Hemming leaned over and began to pick this lint off my sleeve. Well, that was an embarrassing moment.—Chicago Tribune.

THOUGHT

The Secret Pack.

My memory hath a secret pack
Wherein I store the loveliest things;
And in my heart, not on my back,
My dear and guarded treasure
swings.
With every passing year it grows,
And as it grows life fairer gleams;
And lesser weigh my daily woes,
And brighter, rarer shine my dreams

My memory hath a secret pack;
It steads me, cheers me all the
while.
Within each kind word, each loving
smile.
It matters not if darkness falls,
I never let my heart be dumb,
For love knows not until it call
What faithful echoes back will
come.

My memory hath a secret pack;
When I am sad I open it,
And soon of solace I've no lack,
And over land, and over sea,
My thought flies swifter than a
dove,
For are not those who smiled on me,
Still keeping bright the lamp of
love?

PARKER-WALKER

A wedding of much interest was
that of Miss Lillian Walker to Mr.
Joe Lee Parker at 10:30 o'clock this
morning, at Austinville. The cere-
mony was performed by Rev. M. W.
Daily at the pastor's home, Miss
Leitchman Crow and Mrs. Tol. Thomp-
son attending. The bride was attired
in a traveling gown of handsome
dark blue duvetyne, trimmed with mole
skin, the blouse being of beaded geor-
gette, a black velvet hat with ostrich
feathers completed the costume. Mr.
and Mrs. Parker left at noon for
Palm Beach, Fla., to spend ten days.
On return they will be at home to
their friends with Mr. and Mrs. L.
V. Parker, parents of the groom.

FINLEY-REDDING

The wedding of Miss May Bell Red-
ding and Rex Goddard Finley last
Wednesday evening was one of the
season's most prominent social events.
The ceremony took place in the home
of the bride and was performed by
Dr. Byron Holly. The decorations in
this beautiful home were both elab-
orate and lovely with the flower
scheme in white and pink. The par-
ors and hall were thrown in one and
were rich with palms, ferns and
trailing smilax intervened with white
carnations and tulle. Preceding the
ceremony Miss Clot le Bailey, of
Ocean Springs sang "At Dawning." To
the strains of Mendelssohn's wed-
ding march the bridal party entered
the east parlor and stood under a
wedding bowler beautifully formed of
palms entwined with tulle and car-
nations. A pre-dieu of white satin
had been arranged for the bridal cou-
ple to kneel upon. The winsome
bride was radiantly lovely in an ex-
quisite gown of white satin and lace
with veil of illusion held in place by
a spray of orange blossoms, she car-
ried a shower bouquet of bride roses
and lilies of the valley. She entered
with her sister, Miss Estelle Redding
who as maid of honor, wore a very
handsome gown of flesh georgette
and carried a bouquet of pink carna-
tions and American beauty roses. Mr.
Finley had as best man, Mr. Bertram
Nelson. The wedding march was
played by Miss McClure. A large re-
ception followed the ceremony. In the
lining room the color scheme of pink
and green was carried out in the de-
corations and confections.

Many handsome and beautiful pres-
ents attested to the popularity of the
bride and groom. The young couple
left for Asheville for a two week
bridal tour.—Biloxi-Gulfport News.

MORE THAN WILLING TO GO

Senator's Suggestion, Meant as Sar-
casm, Probably Was Wish Closest
to Adventure's Heart.

Maj. Cushman A. Rice of Minne-
sota, the original "Soldier of Fortune,"
dropped in to see Senator Knute Nel-
son the other day, on his way back
from war. This last war made about
the fortieth Rice has been in, so the
veteran Minnesota senator thought
Rice had had enough.

"Cushman," the senator said, "why
don't you quit roaming around, go
home and run for office? Your male
relatives have been governors, sena-
tors, etc., and there is no reason why
you should not serve your state."

Rice did not seem greatly impressed,
so Nelson became somewhat warmer
in his remarks.

"If you're bound to fight, why not
get over into Russia, among the reds,
and get some real action?" Nelson
said, sarcastically.

Whereupon Rice leaped into the air.
"Say, senator," he shouted, "if you'll
fix it up so I can get over there, there
isn't anything I wouldn't do for you."
That's the curse of the wandering
foot, as the poets would remark.—
Washington Star.

Didn't Know Ty.

Hiram Johnson, Republican senator
from California, is one of the hottest
baseball fans in the country. Jim Phe-
lan, Democratic senator, knows noth-
ing about the game. Here is proof of
the latter statement.

The other day Walter Johnson, pre-
mier pitcher of the American league,
and Ty Cobb, the greatest ball player
in all history, perhaps, paid the sen-
ate a visit. After they had been intro-
duced all around and been the subject
of a great deal of hero worship, Phe-
lan went over to Eddie Halsey of the
senate staff, and asked:

"Who is this Ty Cobb, anyhow?"
Halsey almost passed away, but he
managed to tell Phelan that "Cobb is
a fellow who plays ball for a living."

Meantime Johnson was enjoying
hugely the visit of the two ball play-
ers.

LEAVE IT TO JANE HERE

WEDNESDAY, OCTOBER 22

The brilliant musical comedy hit "Leave It To Jane," direct from its run of one solid year at New York, comes to the Mason's theatre Wednesday, Oct. 22, to spread its gospel of mirth and song, under the direction of F. Ray Comstock and Morris Gest. These young and progressive managers, who are now considered the most important producers in New York, have been especially successful in their presentation of musical comedy, and the impression made everywhere by "Leave It To Jane," is such as to warrant the belief in its lasting qualities beyond the limit heretofore reached in the realm of musical plays. Comstock and Gest have given the theatre such delightful successes as "Oh, Boy," "Oh, Lady, Lady," "Oh, Look," and "Chu Chin Chow." They are sending here a carefully selected cast and a beauty chorus of unusually high degree, and the youth of the chorus in "Leave It To Jane" is not rouged and powdered

presents youth of doubtful age, seen in certain musical attractions, but delightful youth and authenticity.

FINE COMEDY IN BILLIE BURKE'S NEW PHOTOPLAY AT THE DELITE MONDAY

Paramount Star Has Splendid Role in New Picture, "The Make-Believe Wife."

There is an abundance of fine comedy in "The Make-Believe Wife," the new Paramount photoplay starring Billie Burke, which will be shown at the Delite theatre next Monday. Miss Burke declares that her role in this picture is an excellent one and that she believes it to be one of the best of her career as a motion picture star. "I was immensely pleased with the part of Phyllis Ashbrook," said Miss Burke recently. "Fancy a woman who is engaged to one man, being lost in the mountains with a man who is the fiancé of the woman's best friend. They are caught in a storm and are obliged to seek refuge in an old cabin where they are forced by the elements to spend the night. Of course, this situation has developed in motion pictures, but never just like that in 'The Make-Believe Wife.'"

The couple are forced to marry so that the reputation of the woman shall not suffer. Then follow complications of the most amusing sort, all of which contribute to bring the couple to a realization that love is possible after marriage as well as before. I think this is a splendid comedy and it should be well received by the public. We had a delightful time screening the various scenes in the Adirondack mountains, and from the standpoint of photography the picture leaves little to be desired."

His Opinion

"True, women's fashions are so modest as to shock the pure," said J. Fuller Gloom. "The summers are also hotter and the winters colder than they ever were before. Just as usual, the country is going headlong to the dogs. Every town in America has more fools and crooks and gossips in it, in proportion to its size, than any other town in America. The poor are always growing poorer and the rich growing fatter. The end of the world is always at hand, and probably always will be. In fact, there is everlastingly something to howl about, if you want to howl. The women have always worn exactly what they pleased in just the manner that suited them best, and those never was and never will be any help for it. And if their displeasure ever offends you there is no law compelling you to keep edging around until you get a comely woman betwixt yourself and the sun, confound you!"—Kansas City Star.

MESOPOTAMIA TO 'COME BACK'

Prophecy That Ancient Land Is to Be Redeemed From Present State of Barrenness.

It may be remembered that, when Gen. Sir Stanley Maude had to lay down his work with his life in Mesopotamia, that work was taken up and carried on successfully by Gen. Sir W. R. Marshall. The expedition which he sent up the Euphrates freed that river from the Turks, and just before the armistice the force which he led, the Tigris from Bagdad captured the entire Turkish army of 7,000 about 60 miles south of Mosul, the city which stands on the west bank opposite the ruins of Nineveh. Since then the country has had peace, and all the way north and west from Basra there has been a notable revival of commerce and agriculture, with a beginning of the great irrigation scheme devised by Sir William Willcocks. It was through irrigation that in ancient times the land developed its extraordinary fertility, and traces remain of the network of canals that formed the center of Babylon.

Is there to be a renewal of that fertility in place of the desert barrenness produced by Turkish neglect and misadministration? General Marshall, who has returned to England, is of that opinion. Speaking recently at Durham he made one very remarkable statement. As a result of experiments, he said, it was believed that Mesopotamia would become the finest cotton-growing country in the world. That is a large expectation, too large to disturb cotton growers in other countries. Details of the experiments, showing surprising results, will have to be made known before the "sea island" territory of Georgia, South Carolina and Florida can believe that its supremacy is threatened by Mesopotamia, or that the beautiful long-stapled silky wool of its peculiar variety can be excelled anywhere.

The Engineer's Eyes. The importance of the eyesight test is understood in a general way, but few people realize the tax laid on the eyesight of an engine driver during a long run. It takes years for a driver to learn thoroughly all the signals on a complicated system, and he must be able to pick out his own at a glance in the maze of a great junction. On the Northwestern railway alone more than 17,000 signals are in every night, and a driver working from London to Crewe and back is controlled by nearly 600 signals.—London Chronicle.
